

Scenario 1

player1 gets 12 cards including saxons, boar and sword

players 2, 3, and 4 get 12 cards (with some specific ones as seen below)

first story card is Boar Hunt

player1 sponsors

player1 sets up stage 1: saxons (worth 10 not 20) stage 2: boar + dagger + sword (worth 15+5+10)

other 3 players accept and get an A card: must discard to stay at 12 cards in their hands

player 2 plays nothing, player 3 plays a horse; player 4 plays an axe (ie battle-axe)

player 2 is eliminated, players 3 and 4 continue to stage 2

players 3 and 4 get an A card (their 12th), player3 plays excalibur; Player4 plays a lance

player 3 wins and gets 2 Shields, player 4 does not get shields

player 1 discards all 4 cards of the quest, gets 6 new cards, then discards to get back to 12.

second story card is Prosperity

all players draw 2 cards and must discard correctly. In particular:

player2 discards a weapon, player 3 plays amour, player 4 discards a foe

third story card is Chivalrous deed

all players BUT p3 get 3 shields

Scenario 2

first 5 steps of scenario 1 then

player 1 declines to sponsor

player 2 sponsors and uses different foes than those of scenario 1 (to cover foes)

player 3 does not participate

player 4 eliminated in first stage

player 1 eliminated in 2nd stage

ie no winner

next story card is another quest

show it can be properly set up and played

Scenario(s) 4

you must come up with one or more scenarios that demonstrate all aspects of strategy1 work

Scenario(s) 5

you must come up with one or more scenarios that demonstrate all aspects of strategy2 work
